SELL YOUR TESLAS **DUMP YOUR STOCK**

#TESLATAKEDOWN

Elon Musk is attempting a hostile government takeover. Let's hit him where it hurts—his wallet.

DID YOU KNOW?

- Elon Musk is using his unelected political position to loot our government, demolish lifesaving services, and make himself richer.
- Musk and his cronies at DOGE have taken control of the Treasury, Social Security, and other departments with no governmental authority. He is baselessly firing thousands of federal workers, stealing private data, and gutting our essential infrastructure.
- **Musk is a menace and he must be stopped.**

WHY TARGET TESLA?

- Much of Musk's inflated wealth is tied up in his stake in Tesla.
- A North American sales collapse would be a disaster for Tesla shareholders, starting with Musk himself, who owns around 13 percent of the company.
- Our protests are already damaging Tesla's sales and reputation. Join us! Let's take back our democracy from billionaires. **Text MUSK to 51905.**
